

## GALLERIA AND TANGLEWOOD AREA

The Galleria is an enclosed three-story international shopping destination that anchors a vibrant shopping area bridging the 610 Loop. With excellent freeway access available and a thriving business environment close at hand, the Galleria area has proved to be the answer for many people looking for a more urban living environment. This area includes single family homes, elegant townhouses, patio homes and high-rise condominium complexes, all within a framework of close-in Houston living.

### *Tanglewood*

Named after Nathaniel Hawthorne's Tanglewood Tales, the first homes in this upscale community went on the market in January 1949: single story homes on large lots, each planted with four oak trees. Today this popular subdivision with over 12,000 residents is made up of grand new homes and well-kept 1950's ranch-style construction

framed by towering oaks. The integrity of the 15 sections of the subdivision is guarded by a rigid set of deed restrictions enforced by the Tanglewood Homes Association. Tanglewood has remained a popular and charming location with a growing number of stunning new construction homes dotting the subdivision.
